

CONCORD COMMUNITY SCHOOLS

School Immunization Requirements

Welcome to Concord Community Schools! Please take a moment to note the following information from your school nurse regarding immunizations.

For the safety of those in attendance at Concord Community Schools and for the safety of the community in general, it is very important for your child to demonstrate protection against vaccine preventable childhood diseases.

In accordance with IC 20-34-4-5 (Indiana Immunization Law), your child must have a vaccination record on file with the nurse and be compliant with Indiana State Department of Health immunization requirements no later than 20 days after his/her first date of attendance at school. **If your child has not had the required immunizations and the shot record filed with the nurse by 20 days from the first date of attendance, your child will be excluded from school until the immunization status is compliant with Indiana State Department of Health requirements.**

Customarily, we receive the documents from your child's previous school. In the event we do not receive the documents prior to the 20 days, it is the parent's/guardian's responsibility to supply the immunization documentation.

Please see the immunization chart below. Thank you.

2020-2021 School Year Indiana State Department of Health School Immunization Requirements
